

FARMEX

HT-PRO™

MOISTURE AND TEMPERATURE TESTER FOR BALED HAY

HT-Pro measures the moisture content of baled hay. It's the first and only hay tester that includes a calibrator. The calibrator allows the user to calibrate the tester before each season, each cutting, or any other time calibration is required. Direct readout for % moisture and temperature (°F and °C).

SPECIFICATIONS

- Calibration clip included
- Large, clear buttons
- LCD display with backlighting
- Display Resolution: 0.1% moisture
- Moisture limit indication above and below
- Moisture measurement range: 8–44 % (Most accurate under 30 %)
- Temperature measurement range: 0–107 °C
- Probe length: 50 cm
- Extra-rugged probe shaft made from aircraft aluminum
- Battery: 9 V, low battery warning
- Best for measuring stored, baled alfalfa, timothy and clover hay
- Warranty 1 year
- One 9 V battery included
- Weight (with battery): 343 g
- Package size: 760 x 95 x 45 mm
